15 March 2011

Dear Customer,

Please be informed that as from the end March 2011, ITW McMurdo are cancelling the following two product approvals:-

BS9525 N0001

BS9525 F0033

However, the commercially equivalent products (801 and M200) will still be available with no effect to the quality or method of manufacture. These products will be built in accordance to these specifications but not released to them. Full batch and lot traceability will be provided through our ISO 9001 approval.

We will continue to hold the BS part numbering on our system so that you can still order against the BS numbers, but we will only use this as a cross reference to the commercial product and not as a BS release.

We apologise for any inconvenience this may cause.

Yours faithfully,

A handwritten signature in blue ink, appearing to read "R. Townsend".

ROBERT TOWNSEND
GROUP QUALITY MANAGER
