

MAS-CON® IDC Connector System

ITW Pancon

Lane Electronics is a franchised distributor for many of the industry's leading electrical and electronic connector manufacturers including ITW PANCON, leading manufacturer of connectors for Printed Circuit Boards and Flat Cable connections according to IEC 60603-2 (DIN 41612, HI-CON) as well as EN 60603-13 (DIN 41651, LAT-CON), complemented by the product line **MAS-CON** for Flat Cable and Discrete Wire applications and technically sophisticated solutions with special connectors.

The Mas-Con® product line consists of mass-terminated insulation displacement contact (IDC) connectors and mating headers plus a broad line of application tooling. The connectors can be terminated to discrete wire or flat cable.

Features & Benefits

- Available in 0.1" and 0.156" contact pitch.
- 0.1" connectors can accommodate up to 4 Amps per contact and is available in 2 through 36 circuit sizes.
- 0.156" connectors can accommodate between 8 and 12.5 Amps per contact and are available in 2 through 24 circuit sizes.
- Connectors are available for through or end terminations.
- Wire retainers on connectors hold wire in place prior to termination.
- Colour-coded to identify proper wire gauge.
- Flat, polarized, and locking header styles available in straight and right angle configurations.
- Accessories available: covers, strain reliefs, polarizing keys, termination tooling and related items.
- Significant labour savings achieved via Pancon's unique termination tooling.

YOU PROVIDE THE APPLICATION AND WE'LL PROVIDE THE CONNECTOR SOLUTION
