

Bronze MIL-DTL-38999 Series III / JVS

SOURIAU
Connection Technology

Lane Electronics is a franchised distributor for many of the industry's leading electrical and electronic connector manufacturers including Souriau, well-known for its military and aerospace qualified products. We are now able to supply Souriau's bronze MIL-DTL-38999 Series III / JVS connectors for military applications.

**A WIDE RANGE OF SOLUTIONS
FOR MARINE APPLICATIONS!**

Applications

Typical applications for the bronze MIL-DTL-38999 series III connectors & backshells are all surface military marine applications including radar, antenna and control systems for missile launching etc.

Features & Benefits

MIL-DTL-38999 III connectors

- Qualified to CECC 75 201.002
- Layouts available with all contacts from the MIL-DTL-38999 range: signal, coax, Quadrax, power and fibre optic etc.
- Excellent corrosion resistance (salt spray > 500 hours)

Backshells / MIL-DTL-38999 III connectors

- A wide range of bronze backshells are available including:
 - Non environmental strain relief backshells
 - EMI/RFI cable sealing backshells
 - Adaptors for heat shrink boots
 - Backshells for screen terminations (cone clamp, band strap, constant force spring, braid trap)
- Available to suit all MIL-DTL-38999 series III shell and insert arrangements
- Excellent corrosion resistance for the harshest environments

YOU PROVIDE THE APPLICATION AND WE'LL PROVIDE THE CONNECTOR SOLUTION
