

VG95328* (LMHC) Connectors

Features & Benefits

- Removable crimp contacts / no soldering
- Physically small & lightweight with high density contacts arrangements
- RoHS Complaint finishes available 
- Independently tested & approved by **VDE***
- Wide range of back shells - available for screened & non screened cables

Technical Characteristics

- Environmental Category – 55/125/56
- Number of Contacts 3 to 61
- Working Voltage, DC or AC Peak (at sea level) 700 volts or 1200 volts
- Maximum Current Rating at 85°C per individual contact in isolation

Size 20 7,5 amps

Size 16 13,0 amps

Applications

- Rugged military & commercial audio & data communications
- Lightweight communications systems / combat radios
- High specification commercial equipment - power & signal

* - approval pending

Rated Current Versus Temperature
