

## LMH Power Connectors

### Applications

- Rugged military & commercial DC power supply systems
- Military vehicle DC power distribution & equipment power
- Commercial equipment power

### Features & Benefits

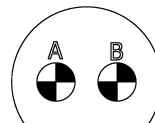

- RoHS Compliant finishes available 
- Physically small & lightweight design
- Wide range of planforms (as below)
- Solder contacts
- Performs to the basic requirements of MIL-C-26482

### Technical Characteristics

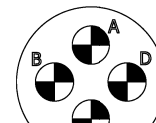

- Environmental Category – 55/125/56
- Working Voltage, DC or AC Peak 1200 volts
- Voltage proof, DC or AC Peak 3000 volts
- Maximum Current Rating at 85°C:  
per individual contact in isolation

Contact Size 20	7,5 amps
Contact Size 12	23 amps
Contact Size 8	45 amps
