

Specification for OBSOLETE Parts

High-level spec:

- Redirect users from the Obsolete part to the new part
- New Part numbers to make clear they are a direct replacement and link to the bulletin from Souriau

Detailed spec

This will only be applicable to some of the “Motorsport Circular Connectors” 8STA range.

Method of identification:

- Type = Motorsport Circular Connectors
- Range = 8STA
- The product full part number is in the format of “OBSOLETE USE {SKU}” where SKU is the SKU of the part replacing the obsolete one.

For example, see 8STA00205PA022

Search results use the teaser view of the obsolete product

OBSOLETE USE 8STA00205PA022B

Eaton (Souriau®) OBSOLETE USE 8STA00205PA022B Fixed Oval Flange Receptacle Motorsport Circular Connector, Shell Size 02, 5 Way, Male/Plug, Crimp Contacts , Orientation A

8STA00205PA022

Currently out of stock

[View Details](#)

Both the title and the view details should link to the new replacement product.

Obsolete Product Full page view

The Obsolete part may still be visible as it may be indexed by google or saved as a direct link outside of the FC Lane site.

We will perform a permanent redirect (301) to the new replacement product from the obsolete once.

Replacement Product Full page view

The replacement product will have the following text: "Direct replacement for obsolete part {SKU}".

It will also link to the Modification bulletin "BM 974 8STA SPECIF 022 FUEL TANK.pdf"
