SOURIAU

Ethernet & High Speed Networks
MIL-DTL-38999, ARINC 600, EN2997, EN3646
Today’s technology for Aeronautic and Military equipment is more and more complex, requiring the management of an increasing flow of information at greater speeds.

In response to this need, SOURIAU offers a wide range of electrical and fiber optic solutions for high speed networks in harsh environments. These solutions can handle data speeds from several Mbit/s up to several Gbit/s using a wide array of communication protocols (Ethernet, ATM...).

Quadrax is the best electrical solution for: High speed electrical network applications, excellent network performances, crosstalk, return loss, high density of links, harsh environment use...

Typical network applications are 100Mbit/s Ethernet, Gigabit Ethernet, IEEE 1394, Fibre Channel, ...
Quadrax Contact up to Cat6

Overview

- Typical applications ................................................................. 6
- Features & Benefits .................................................................... 7
- Description & Technical features ............................................. 8
- Technology overview ............................................................... 9
Typical applications

- Engines
- Aircraft Cabin / Cockpit
- IFE / Lightning
- Landing Gear
- Radio / Network Systems
An Optimized Electrical Contact
Size 8 contact with 4 strategically spaced size 24 inner contacts. One Quadrax contact = Two twinax contacts. One contact provides a full duplex 100 Mbps ethernet link.

A Versatile Technology
Fit the major harsh environment MilAero connectors: MIL-DTL-38999 - EN3645, ARINC 600, EN2997, EN3646.

A Standardized Technology
2 designs for 2 standards:
- Protruding alignment key: ABS qualified / ARINC 664 compliant.
- In-line alignment key: EN3155 qualified.

Superior Signal Integrity Performance
Innovative insert design to enable radial insertion of contacts to improve cross talk performance.
Description

- Front and rear removable versions available
- Crimp and PC tail versions available
- Standard #8 cavity insertion and removal tools
- Ground connection of the cable braid to the shell possible through the external shell of the #8 contact
- Compatible with star quad cable
- Characteristic impedance of 100 Ohms

Technical features

Mechanical

- Operating temperature: -65°C up to 200°C
  - Stainless steel (class K, E, Y and YE)
- Inner contact: Copper alloy
- Contact body: Copper alloy
- Insulator: Thermoplastic resin
- Contact plating: Gold over nickel

Electrical

- ISO/IEC 11801 category 6 compliant:
  - Next (cross talk): >46 dB at 250 MHz
  - Return loss: >16 dB at 250 MHz
  - Shield effectiveness: >36 dB at 80 MHz
- Contact to shell continuity:
  - <10 mΩ (ARINC 600)
- Contact resistance (low level):
  - Initial: 15 mΩ
  - After tests: 30 mΩ
- Dielectric withstanding voltage:

<table>

<tbody>
<tr>
<td>Sea level</td>
<td>500 Vrms</td>
</tr>
<tr>
<td>21 000 m</td>
<td>125 Vrms</td>
</tr>
</tbody>
</table>
- Insulation resistance:
  - At ambient temperature: >5000 mΩ
  - At high temperature: >1000 mΩ
- #24 contact cable size acceptance:
  - AWG 22 to AWG 26

2 designs for 2 Standards

- Protuding alignment key:
  - for ARINC 600, EN2997, EN3646
- In-line alignment key:
  - for MIL-DTL-38999

---

ABS QUALIFIED

ARINC 664 COMPLIANT

EN3155 QUALIFIED
An optimized high speed electrical contact

Size 8 outer contact with 4 strategically spaced size 24 inner contacts forming two 100Ω or 150Ω matched impedance pairs with excellent 360° shielding.

Equivalent to two twinax contacts with:
- better performance (reduced cross talk)
- shorter cabling time
- compact profile
- lighter weight

One contact provides a full duplex 100 Mbps ethernet link, and fulfills the ISO/IEC 11801 category 6 requirements.

A versatile technology

Fit the major harsh environment MilAero connectors:

ARINC 600  MIL-DTL-38999/EN3645  EN2997  EN3646

Ground connection of the cable braid to the connector shell on:
- All ARINC 600 layouts
- MIL-DTL-38999 Series I & III - EN3645
- EN2997
- EN3646

Superior signal integrity performance

Innovative insert design enabling radial insertion of inner crimped contacts.

Radial insertion of contacts in insert enabling minimum untwisting of the cable for wiring operation.

Minimum untwisting of the cable = improved cross talk performance.

Ordering information & Dimensions

Please consult “8LT Series - MIL-DTL-38999 Series I” catalog.
Description

- Front and rear removable versions available
- Twinax: crimp version available
- Quadrax: crimp and PC tail versions available
- Standard #8 cavity insertion and removal tools
- Ground connection of the cable braid to the shell possible through the external shell of the #8 contact
- Compatible with star quad cable
- Characteristic impedance of 100 Ohms
- Mixed layouts not grounded

Technical features

**Mechanical**

- Operating temperature: -65°C up to 150°C
- Inner contact: copper alloy
- Contact body: copper alloy
- Contact insulator: thermoplastic resin
- Contact plating: gold over nickel
- Shell plating:
  - Aluminum shell:
    - Cadmium olive drab (W)
    - Nickel (F)
    - Black zinc nickel (Z)
    - Green zinc cobalt (ZC)
  - Composite shell:
    - Cadmium olive drab (J)
    - Nickel (M)
    - Without plating (X)
  - Stainless steel shell:
    - Passivated (K)
    - Nickel (S)
  - Titanium shell:
    - Without plating (TT)
    - Nickel (TF)
  - Bronze shell:
    - Without plating

**Electrical**

- ISO/IEC 11801 category 6 compliant:
  - Next (cross talk): > 46 dB at 250 MHz
  - Return loss: > 16 dB at 250 MHz
  - Shield effectiveness: > 36 dB at 80 MHz
- Contact to shell continuity: < 10 mΩ
- Contact resistance (low level):
  - Initial 15 mΩ
  - After tests 30 mΩ
- Dielectric withstanding voltage:

- **Vibration & shock:**
  - according to EN2997.

**Electrical**

- **Insulation resistance:**
  - 5000 MΩ under 500 Vdc.

- **Max current rating per contact:**
  - size 24: 1A
  - (4 size 24 inner contacts in a size 8 outer contact).

- **Contact resistance:**
  - initial < 0.4 mΩ.

- **Electrical continuity:**
  - 5mΩ with RFI shielding.

- **Shielding:**
  - to 100 MHz at 1 GHz attenuation 65 dB.

**Environmental**

- **Temperature range:**
  - -60°C to +200°C R & K classes.

- **Leakage:**
  - as per 2591-312:
    - Method B differential pressure: 100kPa
    - Maximum leakage flow: 16x10⁻⁶ m³/h

- **Salt spray:**
  - 48 hours (R class),
  - 500 hours (K class).

- **Fire resistance:**
  - as per EN 2591-318:
    - 6 min under a 1100°C flame without electrical perturbation, plus 14 min with no flame propagation (ES class).

- **Resistance to fluids:**

**Description**

- Robust aluminum or stainless steel screw coupling connector.
- The utmost solution to combine high vibrations and high temperature.
- Quadrax contact size 8 to use in size 6 cavity.
- Standard strain relief backshell or spacer accessory to adapt any specific backshell.
- Airbus ABS 1340-1343, 1426-1427, 1452 qualified.
- Grounded insert option for perfect shielding.
- PC tail as well as crimp contacts available.

Mandatory suffix for shells sizes 18, 20, 24 & 28:
- 125: With quadrax contact + sealing boot (200°C max)
- 126: With backshell, without contact and sealing boot
- 231: With spacer, without contact and sealing boot (see next page for available layouts)
- L: Without contact and sealing boot

Mandatory suffix for layout 08-01 only (200°C, plug with female contact & receptacle with male contact only):
- 165: With quadrax contact + backshell for heatshrink sleeving
- L165: Without quadrax contact, with backshell for heatshrink sleeving

Description

- Robust bayonet coupling system withstanding high vibrations
- ABS qualified design derived from EN3645/MIL 26482 Series 2
- Environmental stainless steel version or aluminum shell
- Smallest aeronautical quadrax on the market

(1) mono quadrax connector delivered with backshell and without contact.
(2) mono quadrax connector delivered with backshell and with quadrax contact.
Description

- High density solution:
  . Blind mate, clearance device for better rackability
  . Low insertion force

- Rackable solution:
  . Up to 56 #8 quadrax contacts

- Modular solution:
  . Build your own connector matching your exact needs

- Repairable solution:
  . EMI RFI shielding solution
  . Nickel and alodine plating
  . 100A power capability
  . Fixing type
  . Grounding
  . Filtering

Ordering information & Dimensions

Please consult “ARINC 600 Series” catalog.
SOURIAU contact offer

**Fiber Optic ELIO® Contacts**

ELIO® contact: ruggedized and user friendly fiber optic technology. Easy mounting optical link for severe applications.

Flight proven:
- The only Airbus qualified fiber optic technology: ABS1379, ABS1213, ARINC 801 and EN4531 qualified.

Robust connection:
- Withstanding the most severe vibrations with excellent optical performance (0.3 dB).

User friendly contact:
- Easy cleaning: no part to remove.
- No tool needed for insertion/extraction of the contacts.

A wide range available:
- In all planforms with #8 cavities. Up to 24 ELIO® contacts in 38999 size 25.

See «ELIO® Fiber Optic Technology» catalog on www.souriau.com

**BMA Coaxial Contacts**

A robust and powerful coaxial High Frequency transmission (BMA) now available in any size 8 SOURIAU insert of D38999 Series III.

Spring HF contact:
- Vibration and High Frequency.

Largest Flexibility:
- 16 layouts available.

Qualified coaxial contact:

Easy mounting:
- Removable contact.

See «VGE1 ELIO® Rugged Fiber Optic Solutions» product news on www.souriau.com
**SOURIAU contact offer**

### Power Contacts

**Power supply in harsh environments. Designed to be used in severe environments, fluid resistance, high shock and vibration.**

**A unique contact design with a braid socket:**
- 20 contact points for a #4 contact vs 2 or 3 for a standard socket.
- Allowing 20% more current as compared to standard socket.
- Excellent vibration withstanding.
- Insure excellent crimping.

**A versatile individual sealing on the cable:**
- Sealing on the cable done thanks to a sealing boot.
- Same connector can accommodate a wide range of cable diameter.

**A contact technology integrated in well proven standard MilAero connectors:**
- Up to 260°C service temperature.
- Up to 60G vibration withstanding.
- Shell available in, aluminium, composite, Stainless steel, Titanium & Bronze.

See «38999 Series III - Power Contacts» product news on [www.souriau.com](http://www.souriau.com)

### High Power Contacts

**38999 High Power (up to 850A). Designed to meet the harshest military requirement where high power and shielding are needed.**

**3 aluminum shell sizes available:**
- Size 19 (450A max); size 23 (650A max); size 25 (850A max).
- Different finish: cadmium, zinc nickel, electroless nickel.
- Threaded coupling.

**Superior contact technology equipped with a silver plated braid:**
- High contact endurance.
- Low contact resistance.
- No microcut under vibration.

**Modular design for easy installation:**
- Removable backshell: straight, right angle or bus bar.
- Backshell termination: for thread or shrink boot.
- Possible to crimp various cable (Ø from 50 to 185mm).

**Safety**
SOURIAU contact offer

**Power Contacts for PCB**

Firewall connector for power supply, adapted to PCB solutions.

Safe & Quick Avoid soldering of contacts:
  - No heat applied: no risk of damaging the connector.
  - Quicker fit in the equipment.

Robust:
  - True mechanical link between PCB and contacts: no additional double flange needed. Power contacts are attached directly to the board with screws for an optimized connection.
  - Available in size 6 contact (Ø4.6mm) & size 4 contact (Ø5.74mm).

Compact:
  - Tapped contacts for direct and small sized connections, especially compared to standard lugs.

See «EN2997 Series Power Contacts for PCB» product news on www.souriau.com

---

**230V Connectors**

The use of higher voltage to reduce cable weight has lead to the development of double voltage in un-pressurized connectors.

Robust design and materials:
  - ensuring that in un-pressurized areas no partial discharge will weaken the connector.
  - each production batch is tested to ensure performance to this high level.

No possible mismatch:
  - specific T and V clocking to avoid mating with a non 230V qualified counterpart.

Flexible offering:
  - available in standard watertight as well as in hermetic connectors.
  - available in composite and stainless steel shells.

See «230V Connectors» product news on www.souriau.com
